

“ I’ve always been proud of the trust pool professionals have put in Meyco. Our rich heritage of innovation since 1957 has helped earn that trust. I’m happy to share some of our early milestones with you here. ”

1957: The Swimming Pool Cover Invented
A U.S. patent was issued to Fred J. Meyer, Jr. in 1960 for the invention of "The Swimming Pool Cover."

1962: The Disappearing-type Anchor Invented
A U.S. patent was issued to Fred J. Meyer, Jr. in 1962 for the invention of "The Disappearing-type Anchor."

1898: Fred J. Meyer, Sr. Founds the Company That Bears His Name
The company started out making awnings and flags and was transitioned into safety pool covers by Fred, Jr. some 70 years later.

1964: World's Largest Swimming Pool Cover
Meyco built this 15,640 Sq. Ft. (92' x 170') monster for Maplewood Township Pool in New Jersey.

1979: The Safety Pool Cover and the Car
In 1979 a car went out of control and landed on top of a Meyco cover. Incredibly, the car remained supported by the cover (after the driver had walked across it to safety).

Innovations focused on safety and fit

Meyco's High Performance Marine Thread

Meyco only uses white polyester bonded marine thread for its safety pool covers. It has the highest UV protection available and outperforms darker or cheaper threads which are proven to deteriorate in half the time.

Spring-Loaded Pop-up Anchor

Single twist open, single twist close. Flush to surface when closed.

* Exclusively available from Meyco. Ask your retailer for details.

Meyco Step Cut Solution using Polyguard

Meyco's unique Step Cuts guide the cover along pool steps and our patented Polyguard application hugs the rocks to form a safe barrier.
